

MIDDLE MARKET

The Middle Market is a key segment for Allianz, characterized by a diverse range of businesses and industries. This segment is crucial for the company's growth and profitability, offering significant opportunities for innovation and expansion.

North America

- Strong performance in the US market, driven by robust economic growth and increasing demand for insurance services.
- Continued investment in technology and digital transformation to enhance customer experience and operational efficiency.
- Focus on expanding the product portfolio to meet the specific needs of the North American middle market.

Banking & Finance

Allianz provides comprehensive insurance and risk management solutions for the banking and financial services industry. This includes coverage for property, liability, and operational risks, ensuring the stability and continuity of financial institutions.

Health

Allianz offers specialized insurance products for the healthcare sector, addressing the unique risks associated with medical practices, hospitals, and pharmaceutical companies.

Real Estate

Allianz provides tailored insurance solutions for real estate developers, owners, and investors, covering property damage, liability, and construction risks.

Construction

Allianz is a leading provider of construction insurance, offering a wide range of policies to protect construction projects from various risks. These include property damage, theft, and liability coverage, ensuring that construction companies can manage their risks effectively and complete their projects successfully.

- Comprehensive coverage for construction projects, from pre-construction to completion.
- Specialized policies for different types of construction work, such as residential, commercial, and industrial.
- Flexible and customizable insurance solutions to meet the specific needs of each project.
- Proven track record of claims handling and customer service, ensuring prompt and fair resolutions.
